PE :

This term PE will continue to be on Monday and Wednesday afternoons. We will be preparing for sports day and so will be carrying out various athletics in preparation. We will also alternate between rounders and cricket lessons.

Summer Term 2 2014- The Apprentice

Home Learning Reading challenge:

This term I will be setting the children a challenge to read one book a week! For each week they do this, they must also fill out a review sheet to prove that they have read and understood the book. There will be weekly prizes as well as an ultimate prize known as 'The Ultimate Green Class Reader.' To receive this prize the children have to not only read one book a week and record this in a chart at school, but they have to fill out regular review forms, contribute to our reading wall and talk to their peers about a book. This prize will be shared in the final assembly of this academic year.

All other areas of the curriculum:

Literacy: learning about formal writing and finishing with performance poetry

Science: biodiversity

RE: Learning about the five pillars in Islam

Music: preparing for Small Schools Music Festival

PSHE: A healthy body equals a healthy mind

Art: Drawing people in action

French: What do I know? What am I confident at? Recapping numbers to 20, days of the week, where do I live?
